UNIVERSE SERIES

—THE POWER OF DESIGN—

An amazing creature, called the red-crowned crane - an endangered animal in China. Even though it is arrogant in nature, the ancient Chinese people enshrined it as a lucky beast, which can bring good luck to people. In the UNIVERSE Series, YEELIM's designer used the head of the red-crowned crane as the design inspiration, applied into the basin faucets, and the body is applied into the kitchen faucet. Whole series is inspired by this mysterious animal, make your bathroom become more magical.

DRAGON SERIES

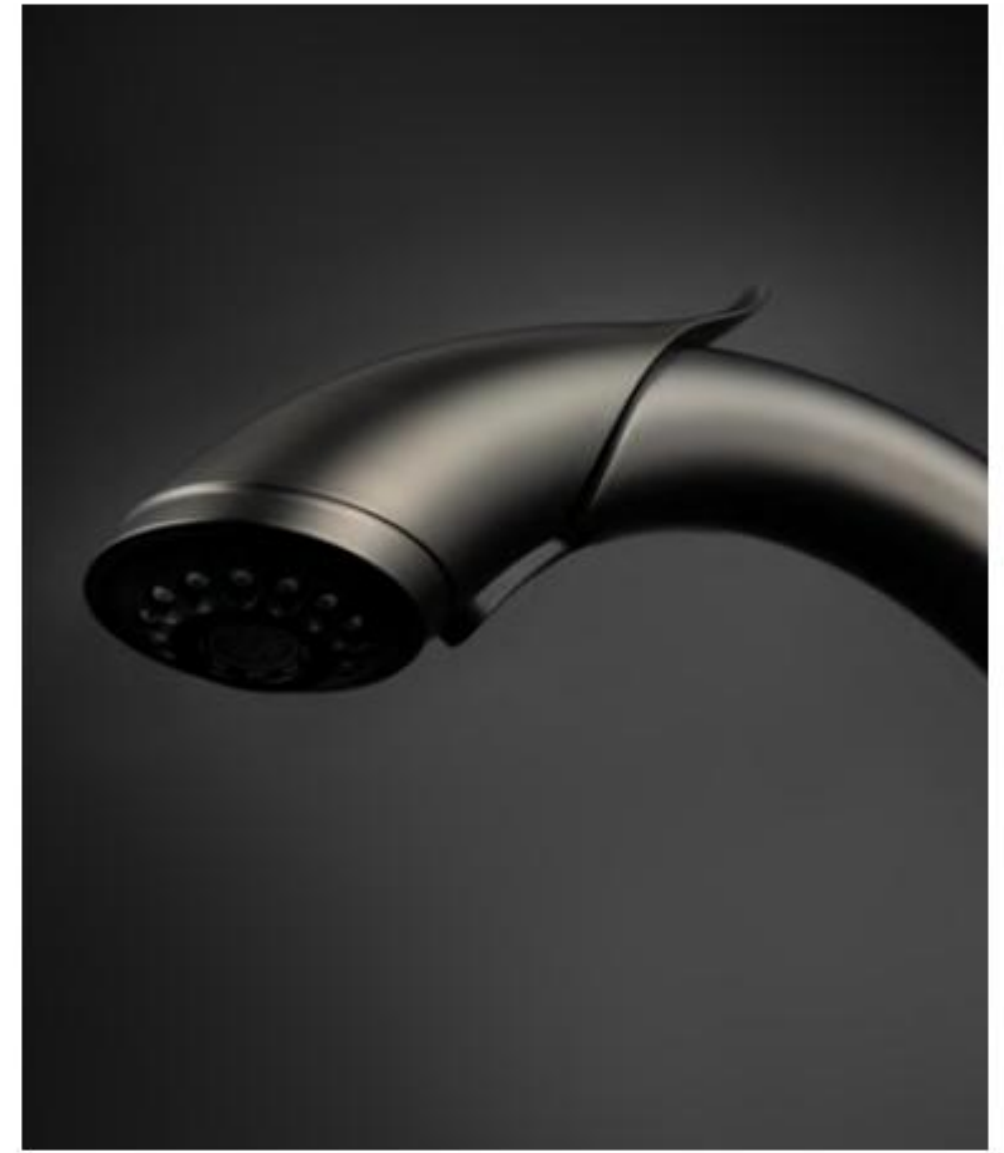

The design is inspired by the ancient Chinese dragon.

In ancient China, a mysterious creature was widespread among people, called "Dragon". It's a symbol of honor and power, but also means for fortune and success. When you pull out the sprayer, the line of the whole faucet is just like the dragon that is swimming in the water.

A detailed view of a European-style kitchen. The room features white-painted wooden cabinetry with glass-fronted upper cabinets and solid lower cabinets. A large, ornate chandelier hangs from the ceiling. In the foreground, a white dining table is set with four white chairs, all featuring a lattice back design. The table is set with plates, glasses, and a teapot. A large, patterned rug is on the floor. The background shows a kitchen island with a sink and a range hood, and two windows with white curtains. The overall atmosphere is elegant and sophisticated.
